Nature Of Opinion:

Docket Number: W-02181A-15-0216

Docket Position: Against

I'm opposed to the rate changes because it penalizes low water users encouraging increased water consumption which contradicts water conservation efforts by households. A few years ago a law was passed that new buildings needed sprinkler systems due to a fire in the area. These systems require a larger 1 inch meter and the company is proposing to charge these residences about 3 times the base rate of others for which they have no explanation. This is just a penalty to those with fire prevention systems. Other reasons for my opposition include insufficient notification and over-dependence base rate increase. There isn't enough space to explain each in detail. Thank you, Mark Jennings, DVM
